

Are you a hearing parent with Deaf or Hard-of-Hearing child 6 months to 5 years old?

Overview

Researchers from the University of Rochester are developing new computer technologies that enrich sign language environments for Deaf or Hard-of-Hearing (DHH) children. We need help to get feedback about the new computer technologies we developed in supporting parent-child interaction in ASL in early childhood.

Who are we looking for?

- ▶ Hearing parents or guardians, together with your DHH child from 6 months to 5 years old
- ▶ Hearing parents must be 18 years or older

What you will do?

- ▶ Take part in a study at University of Rochester (up to 1.5 hours)
- ▶ Receive \$50/hour, out-of-town families may receive additional travel compensation

How to take part?

- ▶ Fill in the contact form
